-- Hi Dan

I would like to brag about one of your BBB members. Gary Plina and his team at Southwestern Roofing are outstanding both in pricing and quality of workmanship. My old composition roof was removed, and new tarpaper was installed along with 30 year shingles, painted jacks, drip edge, and flashing. Everything was picked up and hauled off the same day.

Dan, years ago I roofed houses and know what to look for down to the smallest detail. This letter is a special Thank You for a job well done and they are a shining credit to your organization.

Sincerely,
Michael Sharp
